# PERU

Peru still remains one of the Latin America countries with the **LOWEST INFLATION RATE**

Peru is located on the west central coast of South America. It is bordered by the Pacific Ocean to the west, by Chile to the south, by Bolivia and Brazil to the east and by Colombia and Ecuador to the north

With a total land area of 1,285,215.60 km<sup>2</sup>, Peru is the third largest country in South America after Brazil and Argentine.

Peru also has rich deposits of Copper, Silver, Gold, Lead, Zinc, Natural Gas, Petroleum and Urea.

Owing to climate variations in its regions, as well as its natural and cultural resources, it is internationally classified as a mega-diverse Country.

Peru has a population of 33.7 million people (82.6% Urban and 24.3% Rural) and for the last 10 years the Peruvian Economy is booming.

*It is estimated that Peru will have a growth of more than 3.1% for the period 2024.*

According to the International Monetary Fund (IMF) Peru is considered a rising star that is part of the new wave of leading emerging markets, and today has solid fundamentals, a framework of policies, and a prudent macroeconomic approach, all of which enables it to enjoy sustained growth and vulnerability.
